4 DAYS ONLY!

INVESTOR ALERT: FORECLOSURES UP 94% IN 2007*

INVESTORS NATIONWIDE ARE MAKING MILLIONS IN FORECLOSURES... AND SO CAN YOU!

Today's mortgage meltdown could be your ticket to millionaire status. With real estate foreclosures up 94% in a little over a year, the opportunity to make a fortune may never be as big as it is today.

By this time next year there will be more millionaires than ever before. Many of them will join the millionaire's club buying real estate foreclosures for pennies on the dollar and selling them for large percentage profits. With Donald Trump's real estate foreclosure system, you will have the strategies, knowledge, and expertise to be one of them.

Register today! Call 888-TRUMP-42 or visit www.TrumpUniversityLive.com

Foreclosure investing is a sure-fire path to wealth in today's real estate market.

HERE'S WHY:

Foreclosure properties are often sold 20%, 40%, even 50% below market value. That means you can buy them for next to nothing and, with the right strategies, sell them for high-percentage profits.

Golden opportunity for investors. This is a prime market for new investors to buy and sell quickly. Experienced investors can buy these deeply discounted properties and hold them for an enormous payday down the road.

High-quality property. You'd be shocked to see some of the most beautiful houses available (some may even be in your neighborhood) are foreclosures. These are no rehab-needed profit makers for those who know what they're doing.

Foreclosures are up 94% in 2007. This high volume trend means you won't be searching for available deals. You just need to know where to look for the best ones.

"TODAY'S MORTGAGE MELTDOWN IS AN INVESTOR'S PARADISE..."

At my foreclosure investing orientation, you'll discover how to find these deeply discounted homes, how to buy them, and how to sell them fast for substantial profits."

"Investors Nationwide are Making Millions in Foreclosures... AND SO CAN YOU!"

Big-money deals in today's real estate market are ripe for the picking. While you may have read that the market is down, the current explosion in real estate foreclosures actually presents a once-in-a-lifetime opportunity to make high-dollar profits on quick, low-cost deals.

Foreclosures soared 94% in 2007!* This booming segment of the real estate market has every investor perking up... and so should you. With the right teacher, the right knowledge, and the right strategies, anyone can make the kind of real estate deals you only see on television.

Whether you're a seasoned real estate investor or brand new to the game and looking to secure your financial future off a couple of deals... real estate foreclosures are the new "it" investment. **But like all good things, this window into big-time wealth won't be open forever.** So if you're ready to make your move, my foreclosure investing system gives you the tools and resources to make enough money — in just one deal — to change your financial future.

"I'm going to give you 2 hours of access to one of my amazing instructors AND priceless information... all for FREE."

5 strategies you'll learn:

- 1. How to Find Foreclosure Opportunities in Your Geographic Area:** Take advantage of the hot investing opportunities in your neighborhood before anyone else does.
- 2. How to Offer Distressed Homeowners a Way Out:** Learn how to be a hero to homeowners who can't afford their adjustable rate mortgage payment.
- 3. Financing:** How to benefit from specific sources of seed capital and put together your own creative financing deals.
- 4. The Phases of Foreclosure — Following the Foreclosure Clock:** When to make a move and how to capitalize at every stage of the process.
- 5. What to Do Once You Have the Property:** Do you rent, renovate, or sell immediately? Learn what's best for your specific situation.

Not just anyone can be one of my instructors.

It takes a superior level of real-world experience to have a chance to speak in front of Trump University students. My instructors have to practice what they preach. And through their experience, they're armed with the knowledge to teach you the strategies to be successful. When you come to my foreclosure orientation, you can be certain to hear from men and women who are currently making money investing in real estate and want to teach you how you can too.

Learning to ride the recent tidal wave of real estate foreclosures has never been **FASTER or EASIER... UNTIL NOW!**

Right now, there are literally thousands of undervalued properties — many in your area — ready to be purchased far below market value and sold high. In nearly all my years of detecting the most lucrative investment trends, I'd be hard-pressed to find a hotter investment opportunity than foreclosures right now.

Why is the profit potential so great?

- 1. Foreclosure properties are often sold way below market value.** That means you can buy low and sell high.
- 2. Golden opportunity for investors.** This is a prime market for new investors to buy and sell quickly. Experienced investors can buy these deeply discounted properties and hold them for an enormous payday down the road.
- 3. High-quality property.** You'd be shocked to see some of the most beautiful houses available (some may even be in your neighborhood) are foreclosures.
- 4. Foreclosures rose 94% in 2007, and I am confident they will keep rising!** This high-volume trend means you won't be searching for available deals. You just need to know where to look for the best ones.

The current rise in foreclosures is an incredible opportunity for you to make legendary real estate deals. It's time to achieve the privileged life you've always dreamed about... not years from now, but just a few short months from now.

Learn everything you need to get started on your path to wealth at my foreclosure orientation. **Register now at TrumpUNY.com or call 888-TRUMP-04 today.** (87867)

Kristen:

I have the status update from my Finance on your \$15K invoice.

Trump University processes invoices and cuts checks every two weeks. Your invoice was approved last week and is in the current processing cycle which means your check is being cut next week and will be available for pickup on the 15th. Being that the 15th is a Sunday, I will stay on top of this with my Finance to find out if it will be going out on the Friday before which is the 13th. I'll advise once I find out and then you can let me know if you want to pick it up in person.

Thanks.

Hi Michael-

Attached is your invoice for the NY Radio campaign. As per your conversation on Friday with Michael, please pay this invoice on a Net 5 day basis.

I will be sending over credit applications for the stations in your other markets so we wont be on such tight payment terms on the next campaign.

Please let me know if you have any questions.

Have a good night,

I think they both have strong dramatic sections throughout which could be edited to kickoff the piece as long as you can cut into them at just the right point. Not yet sure which one would be better, what are your thoughts?

Agreed on not sounding too "salesy" but we need some more oomph around DJT and the announcer which could all come from more energetic "action oriented" music with a memorable "grand entrance" to kick things off.

Funny thing is, even affluent listeners need a big push to get them moving so the announcer needs to have a more urgent (less monotone) approach that highlights key words and doesn't sound like reading.

Make sense?

Michael - if you can call me before 7pm or in the morning at 8, we can talk.

Initial comments:

We will find a BIT more energetic music per your suggestion, but I want to avoid salesy music as discussed Friday. Also Sprach Zarathustra is Ric Flair's Wrestling theme music. Way to dramatic.

We will start with a couple seconds of music THEN switch to DJT per your suggestion.

The read is exactly what we went for. A newscaster approach as we discussed. Too much energy and urgency and we sound like a "Get Rich Quick" scheme, IMO. I can bring talent back in tomorrow and do a cut that way, but I recommend against it.

We REALLY need the sound (narrator and music) to sound professional, not urgent. The words create the energy and urgency. Remember, we do NOT want to turn off the wealthier listeners and I am afraid we will with too much pace, urgency and energy in the music and read.

The piece I received sounds OK but heres the simple feedback to make this ad a much more dramatic WOW:

1) Copy is good but the background music is almost sleepy elevator music. Music should be powerful and adrenaline pumping and is definitely better than no music.

2) DJT quote in the beginning is getting lost because it is too low in volume compared with the announcer but more importantly because it does not have a Grand Entrance. We can give it a grand entrance by either moving the DJT quote right AFTER after the [slightly modified] first sentence but even easier by putting some 1-2 seconds of Grand Entrance music right in front of it and then having the quote and then the music picks up right after his quote. Obviously the song Money Money Money would be great but not yet sure about our rights to this so other types of music that could be good are Theme from the Olympics, Theme from Rocky, Elvis Presley entrance theme music Also Spake Zarathustra (sp?), etc. Something with a quick pop right in the beginning and then a high intensity energy throughout to get you out of your seat and taking action.

3) Speaker is obviously reading the copy but could be much more emphatic with more energy and emotion and highly emphasizing key words like If youve EVER. and NOW is a GREAT time to. Much more punctuation of key words.

We can speak further in the AM if needed. What are the next steps to get these changes incorporated? Thanks.

Here are the 4 spots. What I found while I was digging through everything, is that the quotes they provided us dont exist in the audio I have in that exact form. I thought I had them, but when I went back and listened to them for editing, they were different, and I have poured through everything I have, multiple times today. So what I have done, is found what I think to be a really good powerful quote for the beginning of the spot. I have spoken with Kristen, and she has all ready reached out to the client to see if they can provide us with the actual quote audio. Good news is that once I have the actual quote, it will take me less than 30 minutes to drop it in and replace what we have. However we may feel that this quote can work, and thats fine too.

I have given you 4 versions. I also have a bunch of other versions of the announcer read, with various inflections. Let me know what you think.

From what I recall of my conversations with Chase, I believe that answer is yes. I will revisit that with them and make it happen. I believe that the only thing I will require is an authorized signature. I'll forward the forms to your office for signature and take care of the rest.

That's my fault. You mentioned it a long time ago and we never got around to it. Is there a way you can set up Chase on line just for your accounts so you can view on line and make internal transfers?

Jeff:

I do not yet have the November Bank statement for the Operating Account to complete the November P&L. I anticipate that I will have it this week. Attached is an updated P&L through October, with November and December estimates. October's revenue is \$84,062.16 higher than previously reported because one of our partners has a month plus ten days to report and forward revenue, which did not allow enough time to elapse before sending the previous statements. Once the bank statement arrives, I will have positive confirmation, but my detailed records show that our operating balance has a few hundred thousand dollars, which is slated for operating activities, payroll, and to be used toward paying the remaining balance of Mr. Trump's investment plus interest.

It would be great if I was granted access to view account activity and invest weekly or have a daily sweep account. If access for me were to materialize, I could take on the responsibility of funding the payroll account, and see daily deposits, credits, ISFs, and other activity of interest that currently can be six weeks old by the time I receive the paper statement.

Steve,

Please send me the P & L for November 2006 and a projection for December 2006. Based on the info you previously sent to us, even after the \$1mil you plan to distribute to DJT, there should still be some \$\$ left. Please tell me how much is left and when any future distribution is planned.

Lastly, why are these funds in the credit card account and not in the operating account and invested weekly?

Allen:

For internal purposes, operating revenues and operational expenses are good. I later go back and handle the aspects that have implications more substantial to taxation like depreciation, unearned revenue, etc, and perform a comprehensive reconciliation and review of all accounts to present Donald Bender very good financials that are audit ready. Each year I have always had this completed well in advance of whatever deadline I was given for tax purposes. Simply based on the question being asked, I am committed to rearranging my schedule and priorities so that the process is completed in Q1.

I understand, but when we signed with Administaff I was told their 401k plan would be used. I want to review the docs with Nathan so I can understand what each entities responsibilities are.

Jeff:

It was good seeing you and some of the rest of the team as well. I've been telling myself to get up there more often so as to be a more familiar face.

I don't like to reverse-delegate, it is just that Administaff keeps pointing me in your direction with this 401K. Please feel free to have me do as much as possible to facilitate.

Steve,

It was good seeing you last nite. I hope you had a good time.

I spoke to Nathan this morning about your 401k question. We are going to pull out the agreement with

Administaff and see what we can do. Hopefully we have an answer for you quickly (I'm sure you've heard that from me before)

Jeff:

I believe it has been a couple weeks since I've bugged you about the 401K. Is there anything that I can do to facilitate the process? I think that if spoke with the plan administrator, I could alleviate the burden on your end and give you answers instead of questions.

Steve,

I'm looking at the 401k data I'm submitting to Fidelity for our annual non-discrimination test. Very few of your employees making less than \$90k participate in the plan. We need to try and get this participation level up some how. Do these employees know they are eligible for the plan? Have they received the enrollment packages? We need to talk about this.

Thanks

Jae,

Can provide emails and passwords for these individuals? I believe you created ones already for Denise and Chris below, please confirm. Also, I would like to ask you about the ability to automatically forward inbound and outbound correspondence to my email. I would like to track the correspondence of these individuals (it's for compliance - they will not be aware). Please call:

Lastly, can you send the Master email list and passwords to me and Steve Matejek. We would like to make sure we have the most recent list and can remove any old email addresses. Thanks

Okay everyone. Here's the update. The next webinar using GoToMeeting is scheduled for December 10th. There is not an outstanding issue that would prevent that meeting - the double registration is an issue, but the meeting will still run without difficulty, and I will speak with Bryan on the 1st to try to get this resolved. This is not an emergency situation - the double reg. is literally a re-entry of e-mail and name. We successfully ran a webinar using this system two weeks ago. There are bells and whistles to work out, but it is functional and successfully hosted over 600 already. We should start getting the data in the system on the 1st. Let's use the webinar checklist to iron out timelines. Greg and Josef - if you can fill out your sections for the Dec. 10th webinar, I will put them together and send a revised checklist for the upcoming event, LLC Formation.

- The attendees listed the following with regard to areas for improvement:
 - Add networking sessions on Friday and Saturday evenings or add a role-playing session in evening – opportunity for students to practice calls with each other, run through scripts, etc.; o:p>
 - Do have, in each class book, one example with examples for each scenario and on the opposite page, one example with numbers. Most people don't take action because they are confused; o:p>
 - Create transparency for calculations done on overhead projector so we can follow the flow of calculations. As it stands now, we have to try and keep up and guess; o:p>
 - Create worksheet explaining all the different techniques; o:p>
 - o Create handouts, printouts, anything with the formula for lease options. It's too difficult to try to follow – visual aid is sometimes shadowed or page is off the machine, answers given to questions can't be heard from far away. o:p>
 - Initiate the presentation by telling the students that questions will be taken and answered at specific times so there are less distractions and calling out; o:p>
 - Have Chris Goff wear microphone on shirt. On Saturday, he often turns (his) head away from left lapel of suit coat and voice volume trailed off; o:p>
 - More practical work; o:p>
 - Let not be skimpy – provide at least coffee/tea throughout the day o:p>
 - o Offer fruit in the morning o:p>
 - o Know everyone is cost-cutting but just a small thing – have coffee/tea/hot water available for entire class day. o:p>
 - Earlier start time; o:p>
 - Provide CD of retreat so we could review the material repeatedly. Upload the contracts from Quick Turn retreat on Trump website; o:p>
 - Appendix in manual to include numbered tabs and table of contents; o:p>
 - It would help to supply a second set of forms that we can take to our attorney. o:p>
- Upon surveying the attendees as to what topics they would like to see covered by Trump U in the future, their responses included:
 - Taxes o:p>
 - International real estate o:p>

3. When asked if they would attend another Trump U seminar, **98%** responded **Yes**.
4. When asked if they would recommend Trump U to a friend, **96%** said **Yes**.
5. When asked how Trump U could help meet students' goals, their responses included:
 - 送equire Quick Turn course before first meeting with mentor; *o:p>
 - 溺entors must be available for us. It 溺 a great program if we can have continued support and advise; *o:p>
 - 溺ake sure that the field mentor is the right one for the student. My mentor was not right for me. We did things that he wanted. This weekend was great with Chris and wish that I had someone like him for my mentorship; *o:p>
 - o 溺ive me a good mentor that knows my area as I have heard from other student that some mentors are of no help. *o:p>
 - o 溺ake sure the mentor is properly matched to the student, taking into account the student 溺 financial situation, in order to properly guide the student to the investment methods best suited to his/her situation, and make sure the mentor is trained in those methods. My mentor did not give proper guidance, resulting in a very disappointing and unprofitable field mentorship. *o:p>
 - o 溺ake *specialty* mentors available as consultants for their expertise on their individual areas to those who are premium members or for a fee for non-premium members. *o:p>
 - 溺llow auditing of seminars already taken at a reduced price. I recommend 50% off original price. *o:p>
 - 溺 little too fast on the numbers in this class; *o:p>
 - 溺ring back Investor 溺 Edge Software; *o:p>
 - o 溺lass on Investor 溺 Edge Software *o:p>
 - o 溺ebinar on old software *o:p>
 - 溺ssist with a quick lesson on how best to use the website; *o:p>
 - 溺aybe have Beginning, Intermediate and Experienced (level) classes; *o:p>
 - 溺hould NOT end drinks all day with the price charged for this program; *o:p>
 - 溺hos who have purchased the TU Gold should be able to access upcoming CD on Quick Turn at no additional cost *o:p>

Jae-

Our UT office is still having access problems with the web based Outlook app. Every 4-6 minutes the system throws them off, requiring them to log back in. I would like to get these guys on the Microsoft Exchange system like I use when remote. It operates much more stably.

When can you help make this happen please?
